Stuart Miller

Master's Student in Computer Engineering
Missouri University of Science & Technology

CpE 6330 - Clustering Algorithms

May 2, 2018

About the Author

Stuart is a computer engineering master's student at Missouri University of Science & Technology. Stuart previously obtained his bachelor's in Computer Engineering from Missouri S&T and expects to graduate with his master's in spring of 2019. His research interests in focus on embedded systems and low-level programming, but include general programming as well and extend to many other disciplines of computer science. Stuart has held internships at: Boeing as an IT data warehouse specialist; Garmin, as an embedded software engineer; and will this upcoming year be at Vermeer Manufacturing as an embedded software engineer. More information about Stuart can be found on his website at <https://web.mst.edu/~sm67c>.
